嶺大大師班系列

4 QUALITY EDUCATION

Understanding Finance and Financial Decision Making

認識金融與財務決策

This event introduces key concepts in finance, including risk and return, and financial decision making. Through examples, participants will develop a better understanding of how financial decisions are made and explore study pathways in business and finance.

Speaker Introduction

Professor Wilson Choi

Prof. Wilson Choi is a faculty member in the Department of Finance at Lingnan University. His teaching and research interests cover corporate finance, investments, and related areas in business. Prior to joining Lingnan University, he managed his own business and conducted professional training programmes for a wide range of organizations, including the Census and Statistics Department, the Hong Kong International Aviation Academy, and the MTR Academy.
