Workshop 1

Professor Graeme Turner
Professor of Cultural Studies
ARC Federation Fellow
Director, Centre for Critical and Cultural Studies, University of Queensland, Australia

Higher Education Policy & Academic Practice

Date: 30 Jan 2012 (Monday)
Time: 4:30 - 6:30pm
Venue: GE321

Abstract: In this first workshop of Professor Turner’s visit to Lingnan, participants will be asked to reflect upon their experiences—both the rewarding and the challenging—in implementing aspects of higher education policy in the academic workplace. The academic practice, worldwide, is increasingly influenced by government policies on research, on training, on industry development, and innovation as well as education; responding to these new influences often requires a great deal of adjustment. As a preliminary to the workshops and lectures which will follow over the two weeks of Professor Turner’s visit, this workshop will be a scoping exercise aimed at discovering and highlighting what the academic staff regard as the key issues in their own practice at present. Issues related to the introduction of Outcome-based approaches to teaching and learning will be of particular interest.
