Exploration of Sham Shui Po Neighborhood Culture and Community Co-creation 深水埗街區文化探索與社群共創

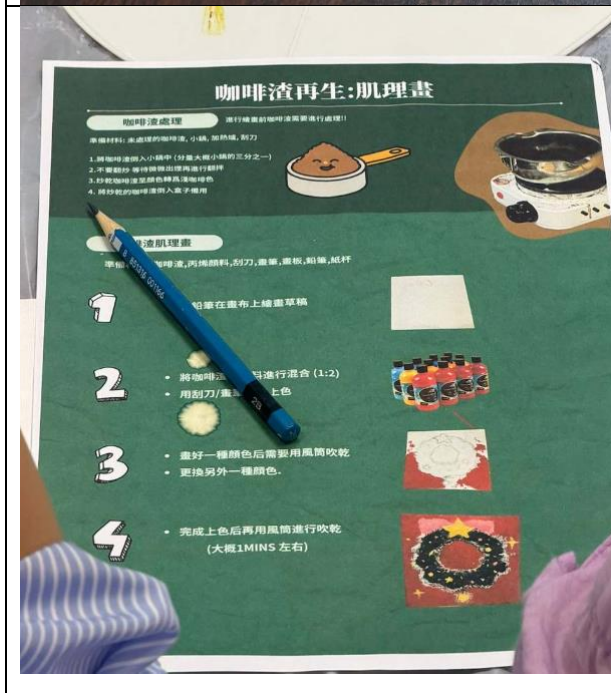

Supported by the Postgraduate Student Learning Enhancement (PSLE) Activities Fund, we have collaborated with i-COMMON HK to implement the “Exploration of Sham Shui Po Neighborhood Culture and Community Co-creation 深水埗街區文化探索與社群共創 ” project from 16 January to 30 June 2026. Through workshops, students learn about the key elements of sustainable cities and communities. They then conduct on-site explorations of Sham Shui Po’s neighborhood culture by visiting local shops, strolling through the district, and interviewing community members. Using these insights, students engage in community practice by applying co-creation approaches to promote sustainable development within the community.
