

Our ECON Student, LI Tsz Yin Kelvin, was Selected for MEMSI 2025

Our ECON student, LI Tsz Yin Kelvin, has been selected to participate in the MIT Entrepreneurship and Maker Skills Integrator (MEMSI) 2025, took place from 13 - 25 January 2025. This two-week intensive bootcamp is designed for aspiring entrepreneurs from MIT and universities in Hong Kong, focusing on developing skills in entrepreneurship, prototyping, product development, and business modeling. The program partners with the Hong Kong International Airport to tackle challenges in the aviation sector, emphasizing innovation and accessibility.
