Term 1, AY2023-24

Course Title Understanding Life and Happiness: An

interdisciplinary approach

Course Code CLE9025
Recommended Study Year Not Specified

No. of Credits/Term 3

Mode of Tuition Sectional Approach (with Service Learning

Assessment)

Class Contact Hours 3 hours per week

Category in Major Prog. Core Curriculum Cluster

Values, Cultures and Societies

Prerequisite(s) N/A
Co-requisite(s) N/A
Exclusion(s) N/A
Exemption Requirement(s) N/A

Brief Course Description

This course applies an interdisciplinary approach to positive living, with a view to equipping students with the practical skills to make the most of their lives. It introduces students to the concepts of mental capital and mental goods, and shows how mental capital is shaped by habits and culture. Examples will be drawn from history as well as current events to show how people can be bogged down unnecessarily by "sunk costs and past glory" and how personal effort can make a huge difference to the "set range of happiness" and even circumstances, both of which are, over the long run, affected by consistent effort and voluntary choices.

Aims

The aim of the course is to prepare students for a more fulfilling, happier life through positive living ("constrained maximization").

Learning Outcomes (LO)

Upon completion of the course, students are expected to be able to:

- 1. discuss the proposition that life is a precious and valuable resource;
- 2. apply the economic principle of constrained maximization as a form of positive living;
- 3. articulate the nature of mental capital and its connection to happiness;
- 4. explain role of culture in the production of mental goods and how this relates to sustainable development.

Indicative Contents

- 1. Introduction to the Economics of Life and the meaning and strategy of constrained maximization
- 2. Love and the Economics of Love
- 3. The Role of Culture in Household Production
- 4. Mental Capital and Habit Formation, with a Digression to Spiritual Capital
- 5. Seligman's Happiness Formula: a proposed amendment

Term 1, AY2023-24

- 6. Marriage, Mental Capital, and Happiness
- 7. More on Mental Goods: Achievement versus Vanity
- 8. Insight, Fortitude, and Engagement
- 9. "Three Happinesses" and Transcendental Happiness
- 10. Avoiding Regrets and Coming to Terms with Past Errors
- 11. Avoiding Worries and Coming to Terms with an Uncertain Future and Negative Emotions
- 12. The Paradox of Choice: More Choices and More Sophisticated Products Need Not Translate into Greater Happiness
- 13. Holistic Perspective of Life, Successful Living, and Happiness

Teaching Method

Lectures and discussions involving student participation.

Measurement of Learning Outcomes

| | Assessment Method | | | | | | | |
|----|--|---|--------------|-------|--|--|--|--|
| Le | arning Outcome | Presentation, participation and reflective essay 30% Or Presentation plus Reflective Essay Based on Service Learning plus Assessment by | Mid- Term | Final | Self Assessment | | | |
| | | Partner Agency plus Performance in Service Learning and Participation 30% | 20% | 50% | | | | |
| 1. | Discuss the proposition that life is a scarce and valuable resource | Yes | Yes | Yes | A Questionnaire will be filled in at the beginning and at the end for self | | | |
| 2. | Applying the economic principle of constrained maximization as a form of positive living | Yes | Yes | Yes | assessment and not for grading. Anonymous return of results to instructor is requested for | | | |
| 3. | Articulate the nature of mental capital and its connection to | Yes | Yes | Yes | teacher's reflections. | | | |

Term 1, AY2023-24

| | happiness | | | | |
|----|--|----------|-----|-----|--|
| 4. | Explain the role of culture in the production of mental goods and how this may be related to sustainable development | Probably | Yes | Yes | |

Presentation, training and essay: students will share their life experiences and apply the theories learnt in class. Alternatively, students will be asked to conduct training sessions for school children/subjects in NGO agencies.

A mid-term exam: students are required to show their practical knowledge and their understanding of the subjects taught citing real life examples.

A final examination: Students' overall understanding of basic concepts and theories.

Service Learning Assessment

From time to time this course may adopt the service-learning approach as a component in continuous assessment. Under the guidance of the course instructor and a project officer from the Office of Service-Learning, 2 to 3 students who opt for Service Learning (working as a group) will conduct training/workshop sessions with clients in a social agency/students in participating schools, which the Office of Service Learning will invite for participation, so our students can transfer the knowledge acquired in the course to them. The training sessions will include (1) discussions over "happy" and "unhappy" stories found in real life that have been reported, offering an interactive approach for students to learn about the mental needs of people and how they may or may not be satisfied; (2) creative "drama"/singing/art/dance/group play sessions so subjects can learn about how habit formation can affect happiness. Students will be asked to write a reflective essay. Students are expected to better understand the concepts learned through these training sessions as they interact with subject agencies/school children.

Assessment

Continuous Assessment: 50% consisting of:

| | Service Learning | Otners |
|--------------------------|------------------|--------|
| Presentation | 5% | 5% |
| Rating by Partner Agency | 5% | |
| Attendance/participation | 10% | 10% |
| Reflective essay/Essay | 10% | 15% |
| Mid term | 20% | 20% |
| | | |

Final examination: 50%

Self-Assessment: Students will be asked to do a test at the University of Pennsylvania website below before and after the course as a self assessment of whether they have benefited from the course (approaches to happiness and life satisfaction):

http://www.authentichappiness.sas.upenn.edu/questionnaires.aspx

Important Notes:

- (1) Students are expected to spend a total of 9 hours (i.e. 3 hours of class contact and 6 hours of personal study) per week to achieve the course learning outcomes.
- (2) Students shall be aware of the University regulations about dishonest practice in course work, tests and examinations, and the possible consequences as stipulated in the Regulations Governing University Examinations. In particular, plagiarism, being a kind of dishonest practice, is "the presentation of another person's work without proper acknowledgement of the source, including exact phrases, or summarised ideas, or even footnotes/citations, whether protected by copyright or not, as the student's own work". Students are required to strictly follow university regulations governing academic integrity and honesty.
- (3) Students are required to submit writing assignment(s) using Turnitin.
- (4) To enhance students' understanding of plagiarism, a mini-course "Online Tutorial on Plagiarism Awareness" is available on https://pla.ln.edu.hk/.
- (5) Students are required to fill in a mid-term survey and the end of course CTLE survey.
