

### **JAWS (“Job Access With Speech”)**

JAWS 結合揚聲器或點字顯示器，是一種通過播放或摸讀的方式，來讀取電腦屏幕裏包括圖示、功能表、文字、符號和控制按鈕等所有資訊的軟件。方便把電腦螢幕所顯示的東西報讀或利用點字顯示器顯示出來，讓視障朋友可以知道畫面所顯示的東西、報讀。

JAWS integrates with the text to speech and braille display, the visually impaired can read charts, function tables, text, marks and control buttons by using JAWS. Users are able to listen or touch the braille display to get information that the visually impaired shall have no barrier to obtain information.
