"This internship provided me a fabulous journey during the summer break. My daily routines are quite close to what I have learned from my university, and fortunately I got a wonderful supervisor who taught me a lot which I did not know before the internship. Thanks to CareerDC for offering me such a great opportunity."

Jacqueline Sheung Yu Li,
Bachelor of Social Science,
Major in China and Asia Pacific Studies,

"I really enjoyed my internship and my time with my colleagues. They have been amazing, friendly and helpful to me during my internship. Moreover, through this experience, I gained a lot of exposure to the business, while still learning more about marketing and improving my communication skills. Other than that, this internship allowed me to gain an insight on working culture here in Australia. I would highly recommend doing an internship for someone who wants to experience working and living in Australia."

"CareerDC helped me to match with the internship company in New Zealand and provided me supports for the interview. When I arrived in New Zealand, Jessica, the helper from CareerDC was very nice and friendly, who assisted me deal with living issues, such as opening a sim card and bank account, as well as providing the travel tips. I can really feel the hospitality and enthusiasm from CareerDC, especially i am going to New Zealand all by myself, those supports mean a lot to me."
