WHY LIVE IN STUDENT HOSTELS?

Liberal Arts Education and Residential Education

A vibrant and fruitful university life goes far beyond classrooms and academic pursuits. Residential life is an important part of the total university experience and residential education is one of the key elements of Lingnan University's liberal arts education.

Hostel Residency Policy (HRP)

Full-time Undergraduate students (UG) should observe the Hostel Residency Policy (HRP) according to their intake year of study. There are two sets of HRP, HRP 1 which is applied to UGC funded UG students admitted in the 2020/21 intake or thereafter and HRP 2 which is applied to UGC funded UG students admitted in 2019/20 or before.

Core Values of Residential Education

3. Residential Education becomes one of the ILP domains which focuses on quality whole person development to enhance students' competences in personal development, leadership, language enhancement and internationalization.

Living Learning Community and Residential Education Programmes

In order to extend student residents' learning opportunities and enhance their intellectual and personal growth, each hostel is a Living Learning Community with an educational theme. The Warden Office will also offer a rich array of residential education programmes ranging from the meaning of hostel life, healthy life style, self-understanding and management, green living, language learning, book reading to art and culture appreciation for their residents. The programmes aim to enhance students' understanding of hostel life and language competence, enrich students' cross-cultural appreciation, strengthen students' intellectual development, widen their Glocal perspectives, and encourage immense interactions with hostel residents and Warden Offices and fellows who come from different study disciplines.

Hostel education has been advanced to Residential Education 宿舍全人教育, one of the six learning domains of the Integrated Learning Programme (ILP), which is a graduation requirement. Every student is required to complete at least 5 ILP units in Residential Education before graduation. The Residential Education focuses on whole person development to enhance students' competences in the following areas:

- **Personal Development:**
interpersonal communication ability, independence, self-governance ability and intellectual development;
- **Leadership Development:**
problem-solving, sense of community and responsibilities, analytic competence and critical thinking; and
- **Language Enhancement and Internationalisation:**
cultural integration and appreciation, and global perspectives.

Activities under this domain will be mainly provided by Warden Offices for advocating their educational themes as Living Learning Community, and supplemented by the Office of Student Affairs (OSA), the Centre for English and Additional Languages (CEAL), the Chinese Language Education and Assessment Centre (CLEAC), various University offices and student bodies.

Cross-cultural Integration and Appreciation

The University provides many opportunities to students to study abroad or in the Chinese Mainland for one full credit-bearing academic term, and likewise to receive the same number of incoming students for one academic term and/or one academic year. Besides, the University is admitting roughly 20% of students from overseas and the Chinese Mainland for full degree programme in support of cross-cultural integration and appreciation.

Students applying for Student Exchange Programmes are strongly recommended to contribute to internationalisation on campus and serve as cultural ambassadors by (1) participating in the Buddies Scheme organized by the Office of Global Education (OGE), and/or (2) living with non-local/incoming students in student hostels for at least 1 term. Your prior experience in these 2 schemes will be taken into consideration and give you extra credit for the assessment of your application for Student Exchange Programmes. OGE will check with OSA whether student opted and stayed with non- local or exchange roommate in the student hostel.

The University encourages interaction and integration among local, mainland and overseas students. Accordingly, the Lingnan Language Enhancement Initiative (L²EI) is launched to enhance students' language competency while nurturing multi-lingual learning and cross-cultural appreciation among students. Under L²EI, apart from the Office of Student Affairs (OSA), the Centre for English and Additional Languages (CEAL) and the Chinese Language Education and Assessment Centre (CLEAC) will be organizing programmes to cater for the needs of students. In addition, a new funding scheme: Student-initiated Multi- Cultural and Multi-Lingual Enhancement Programmes Campus Fund (MMCF) is introduced by the OSA to subsidize student-initiated activities for language learning and cultural exchange.

Support and Guidance

Warden and his/her team provides support and guidance for students in hostels. Each hostel has a Warden, a senior tutor and four to six tutors. The Warden is the overall in-charge of the hostel. The Warden Office (WO) is responsible for a range of pastoral functions which include: care for the welfare of individual residents, the creation and maintenance of conditions conducive to their intellectual, social and cultural growth, the encouragement of a sense of community among hostel members.

Student Hostel Association (SHA) and floor representatives represent the interests of student residents and organize a wide range of activities in order to enhance residents' sense of community and hostel spirit.

Student hostels are also supported by various offices. The Campus Support Office (CSO) of the Facilities Management Division helps in the security, maintenance and repair. The Office of Student Affairs (OSA) helps in administering the hostel admission, room assignment and room swapping, and the withdrawal of student residents. The Information Technology Services Centre (ITSC) helps in the LAN, WIFI and other IT services.

INTRODUCTION OF THE TEN HOSTELS

William M W Mong Hall The Bank of East Asia Hall

Hall A

University life is a key transitional stage for young adults, and at Lingnan hostel-life is an indispensable aspect of that environment where students learn to develop self-care skills, self-discipline, mutual respect, and community living. The Warden and Tutors at Hall A are here to support you in this journey of self- discovery and personal growth.

The theme of our Integrated Learning Programme (ILP) on hostel education is 'good communication'. We organise social activities of interest to residents as platforms to encourage trust, understanding, and mutual respect; we also introduce communication skills and techniques through workshops and talks delivered by guest speakers. The hostel is a place for students to develop their leadership qualities and sense of responsibility and commitment; we strongly encourage you to take up positions of leadership on their respective floors as floor representatives or in the Student Hostel Association and to participate in its activities.

Our motto 'We are family' characterizes our hostel as a living and learning community. This is evident through current residents' close relationship with the Hall A Alumni Association – the only hostel alumni association registered under Lingnan University Alumni Association (LUAA).

Located in the Southern Hostels neighbourhood, the Chung Shun Yee Min Hall presents a proud history for student residence with sophisticated experience in fostering innovative mindset, critical thinking, independent learning and social engagement among residents to gear up for future aspirations.

Our Warden's Office (WO) consists of a dedicated team with a Warden, a Senior Tutor as well as four Tutors to maintain a vivid residential life at Lingnan. Lam Woo Hall

Hall D

One of the four classic hostels of the Southern Student Hostels, Lam Woo Hall is a dynamic campus community of 250 residents, including students from all years, international students and scholarship-recipients. This cultural and social diversity not only creates an inclusive environment where all residents are valued and appreciated, but also forms the foundation of our unique culture of "Freedom, Autonomy, and Self-Discipline 自由, 自主, 自律".

We believe that hostel is a miniature and self-reliant community in which students can learn how to balance freedom with responsibility. To realize this philosophy, our hostel has two wonderful teams of resident-elected officials, the Student Hostel Association (SHA) and the Floor Representatives (Floor Reps). Representing all residents, both SHA and Floor Reps (1) are responsible for day-today operations, (2) offer residents a forum to voice opinions and concerns, and (3) provide hostel-wide programmes and activities, such as Orientation Camp in late August, Haunted House during Halloween, Pun Choi Dinner during Chinese New Year and Annual Dinner in early April.

These annual activities provide social, recreational, and leadership- involvement opportunities for our residents to connect with one another, explore Lingnan and the surrounding areas, and expand their learning and development horizons. Our hostel also features a very dedicated team of live-in staff: The Warden Office (WO). Consisted of the Warden, Senior Tutor and four experienced hostel tutors, WO is committed to encouraging personal growth through educational programming and advising, and helping residents make the most of their residential experience in Lingnan.

Most importantly, our residents have been doing their part in passing on our traditions and have been contributing to our vibrant community. Living in harmony under one roof, residents from different backgrounds and different countries, and WO, SHA and Floor Reps have been working hard to ensure that all students feel at home and could experience the joy of independence through our "Freedom, Autonomy and Self- disciplined" tradition. We hope you can share our joy and are excited to welcome you to our family!

The Jockey Club Hall

Hall E

The Jockey Club Hall (E) values a healthy attitude, responsible leadership and an entrepreneurial spirit by providing various exciting experiential learning opportunities for our residents.

Abbreviated as "Hall JCE" or "Hostel E", our residents enjoy a strong taste of a "green and positive" life style via an enriched conducive environment and dynamic residential education. "Green" signifies our goals of living together in an eco-friendly, healthy, energetic residential life and taking initiatives for sustainable development for the community. Lovely plants outside the hostel's entrance, on top of the letter boxes in the ground floor, and in little gardens in the 8/F lobby, balconies and 9/F lobby will accompany you throughout your hostel life. It is indeed a treat throughout the year with flowers blooming and fresh scents from plants, marveling at them growing in size and numbers.

Joined together, the Warden Office (WO) and JCE Student Hostel Association (SHA) promote the "Green" theme through many opportunities for students to develop academic curiosity, creativity and entrepreneurial leadership.

Some student residents will be elected by all residents in JCE as student leaders. All residents are strongly encouraged to join in programmes offered by the WO, SHA, Office of Student Affairs (OSA) or Office of Service Learning (OSL). Being involved in planning and organizing different activities for hostel buddies, you can achieve different soft skills before your employment after graduation. You will be able to use innovative ideas to solve problems and difficulties, collaborate with different stakeholders in the university, enhance personal confidence, creativity and personal charisma, improve social and interpersonal communication skills, and practice responsible citizenship as a university member. It will surely be an adventurous and rewarding journey!

Let's embark on Hall JCE's unique journey together and have a memorable and lovely residential life!

The Jockey Club Hall

Hall F

At the Jockey Club Hall (F), we prize personal dynamic transformations through interpersonal cooperative endeavors. Among such transformations, intellectual growth is the most important one. "Intellectual", not in its narrow sense of focusing only on theoretical or armchair studies, but rather in its broader sense of keeping abreast of the larger world with a critical yet ardent eye to understanding as well as re-creating it.

We cherish everybody's equal value in his or her potential to attain as high an intellectual growth as possible. We believe that everybody in the depth of his or her mind has the same powerful seed of wisdom, which only awaits appropriate light and water in a piece of fertile soil. The soil becomes fertile when more seeds begin to grow and absorb water that is nothing but various inputs from collective activities as well as individual learning. The light is the stimulation or inspiration which is often emerged from interpersonal discussions, questions and debates. So our Hall encourages all kinds of spontaneous grouping from residents out of similar or overlapping interests.

Again, we believe that a person's interests or habits are not static, or fixed once for all. Rather they are dynamically variable, depending upon both external changing environments and internal developing needs. And the most interesting and challenging thing for us is to create such a naturally growing environment that not only sustains existing healthy personal needs or habits, but also stimulates the breakthrough of more seeds in their journey towards better light at interesting heights -- that is what we mean by "enlightenment".

Wong Hoo Chuen Hall

Hall WHC

On behalf of us in the Warden's Office, welcome to Wong Hoo Chuen (WHC) Hall. We believe that hostel living makes positive contributions to one's education in terms of forming friendships, developing interpersonal skills, and accumulating life experiences. At WHC Hall, we try to provide a fresh and unique model of hostel life within the university.

Established in January 2012, WHC has always attracted excellent undergraduate and graduate student residents who seek a rich, diverse, and culture-based hall life. The living and learning environment that WHC offers is based first and foremost on mutual respect. One example of this is our Peer Mentoring Programme, which provides a platform to share our ideas and goals of academic excellence, career, and personal growth. Due in large part to our architectural uniqueness in that we share the same physical space, it is essential for residents to respect each other. We also hope that residents reach out to and look out for one another. In this regard, we at WHC strive to foster a sense of belonging along with the idea that academics can be cool! We organize many cultural events such as cinema, music, poetry, and are open to any suggestions from residents. Finally, in relation to this overall theme of mutual respect, while at WHC, we hope to foster the formation of life-long friendships that are filled with fond memories and meaningful experiences. Each resident of WHC is part of this diverse community and we all have our own unique and valuable role to play here.

Once again, welcome to WHC!

Tips to Keep Our Hostel Community Safe, Clean and Healthy

Enforcement of Network Access Control with effect from 1 July 2021 for Hostel Wired Network

Upon ITSC's two consultation meetings with hostel representatives conducted in April 2021, the new Network Access Control policy will be enforced on the hostel wired network (connection using LAN cable to the LAN point located in Hostel) with effect from 1 July 2021. Two new controls will be applied to the devices connecting to the Hostel Wired Network in the enforcement.

Control 1: Personal Network Equipment cannot be connected to the Hostel Wired Network

Control 2: Login is required when initiating access to the Hostel Wired network.

Details are available at:

https://www.in.edu.hk/itsc/services/information-security/nac/nac_hostel

Personal Hygiene Your small actions count!

- Keep hands clean and wash hands properly. Alcohol based hand rub is also effective when hands are not visibly soiled;
- Avoid touching eyes, nose or mouth;
- Wash hands with liquid soap promptly if they are contaminated by respiratory tract secretions, e.g. after sneezing or coughing;
- Cover nose and mouth while sneezing or coughing and dispose of nasal and mouth discharges properly;
- Always wrap nasal and mouth discharges with tissue paper, and dispose of the tissue paper properly in a lidded rubbish bin;
- Wear a surgical mask when symptoms of respiratory tract infection (fever, cough, sore throat, runny nose, muscle pain, headache, nausea, vomiting and diarrhea) develop. Seek medical advice immediately;
- Refrain from joining mass activities if you develop symptoms of influenza or infectious illness.

Tips to Keep Our Hostel Community Safe, Clean and Healthy

Bathroom

- No standing on toilet seat
- Close the toilet lid before flushing to avoid germ spreading
- Wash hands thoroughly
- Clear the hair or other rubbish after shower so as to avoid drainage blockage
- Keep the bathroom clean

Common Area and Pantry

- Never leave food in microwave unattended
- Clean up the utensils immediately after meal
- Properly pack your food in the fridge and dispose it once expired

Corridor

- Corridor outside the student bedroom is the fire escape route. Keep the corridor free of stuff. You and your fellow students will be in great danger in case of any blockage in the corridor at the time of emergency evacuation

Tips to Keep Our Hostel Community Safe, Clean and Healthy

Safety is the number one concern for students to stay in student hostels. All student residents are required to take safety precautions. Here are some safety tips:

Safety Tips about Plugs, Adaptors, Extension Units and Electrical Appliances

- Use plugs, adaptors and extension units which comply with the safety requirements.
- Buy electrical appliances with rated voltage of 220V a.c. if they are intended for use in Hong Kong.
- Buy electrical appliances with proper markings (e.g. brand name, model no., rated voltage, frequency and power)
- Buy electrical appliances which are effectively earthed or with double/reinforced insulation design

For using the Microwave Oven

- Before using the microwave, please check if the food utensil container is suitable for use.
- No metallic objects should be used including container, plate, can or aluminium package.
- No raw egg cooking and no concealed container should be used to prevent explosion.
- When using the microwave oven, there should be energy absorbing substance (i.e. food or water) present inside the oven.
- Do not overcooking for fire safety reason.
- Do not place any flammable material or objects over the microwave to prevent fire.
- Do not open the door when the microwave oven is operating.
- Do not leave the microwave oven unattended when cooking.

Preventive Measures of COVID-19

- Check your daily temperature. Students who have a high temperature (37.5 °C or above) or fall sick should seek medical advice immediately;
- **MUST** wear a self-prepared surgical mask properly on campus and in hostel public areas all the time;
- Masks must be disposed carefully;
- Perform hand hygiene thoroughly & frequently, especially before touching the mouth, nose or eyes; after touching public installations such as handrails or door knobs; or when hands are contaminated by respiratory secretions after coughing or sneezing;
- Wash hands with liquid soap and water, and rub for at least 20 seconds. Then rinse with water and dry with a disposable paper towel. If hand washing facilities are not available, or when hands are not visibly soiled, performing hand hygiene with 70 to 80 per cent alcohol-based handrub is an effective alternative;
- Cover your mouth and nose with tissue paper when sneezing or coughing. Dispose of soiled tissues into a lidded rubbish bin, then wash hands thoroughly;
- Observe the social distance of at least 1.5 metre apart from others if possible;
- After using the toilet, put the toilet lid down before flushing to avoid spreading germs.
