About the Seminar

Outline

- ❑ Describe real life ethical dilemmas
- ❑ Examine ethical and unethical situations
- ❑ Assess the factors leading to unethical behaviors
- ❑ Elaborate fundamental ethical principles
- ❑ Discuss common rationalizations for unethical behaviors
- ❑ Resolve ethical dilemmas

Although ethical dilemmas are a normal and predictable part of most jobs, they can be dangerous to your career if you are not prepared for the organizational challenges that may test your personal values, moral beliefs, and commitment to doing the right thing.

This interactive presentation, by staff from the CFA Institute, guided by Dr. Michael Millan, examines several real life ethical dilemmas that professionals working in the financial services industry may face in the course of their careers. These cases challenge participants to consider the various courses of action to address the issues involved. Electronic “response software” will give participants the opportunity to vote (using cell phones, tables, or laptops) on the best course of action and to stimulate discussion.
