

Softphone Application for Windows Installation Guide

1. If you are not on the Campus Network, please connect to Lingnan VPN first.
2. Download the software CiscoJabberSetup.msi from here: <https://softphonefile.ln.edu.hk>
3. Double click the installation file "CiscoJabberSetup.msi"
4. Click "Accept and Install"

5. Instalation in progress

6. Click "Finish" to complete

7. Start Cisco Jabber and go to Advanced settings

8. Click Cisco Communications Manager 9 and later, and input 10.0.202.201 in the "Server address" field.

9. Input your email address as "[xxxxxxx@ln.edu.hk](#)", then click "Continue"

10. Input your IP Phone password to sign in.

Please refer to the Quick Start Guide to use Jabber
