The Future HR Talents Hackathon 2022 was hosted by the HKMA Human Capital Management Society. This year, each University in Hong Kong would be invited to nominate a team (one team per university). Each team was comprised of two to four participants, who were in Year 2 to Year 4 business major full- time undergraduate students (with at least half of the team members were studying Human Resources as major or as concentration). All teams would then compete with each other for the “Champion, 1st runner up, 2nd runner up and a Best Presentation Award”.

Our HRM Students, LAM Wing Ki (Year 4), LEE Cheuk Wun (Year 4) and CHONG Yuen Yau (Year 3) received the 1st Runner Up at the Future HR Talents Hackathon 2022.

Congratulations to the students for their outstanding achievements!
