Class Hours:	Mondays (13:30 - 15:00, LKK 303) & Wednesdays (13:30 - 15:00, LBY G06)
Office Hours:	Wednesday (17:30 - 19:30) Thursdays (17:00 - 19:00)

Brief Course Description and Objectives:

Microeconomics is the study of the choices that individuals and firms make. It also deals with the ways these choices interact in markets. Students are to become familiar with the characteristics of different market structures. This course aims to give students a basic understanding of micro-economic concepts and the economic environment within which businesses operate. It enhances students' analytical skill in applying economic concepts to study current economic and business problems. Through preparation and participation in discussions, they also acquire skills in time management, problem-solving and oral presentation.

Learning Outcomes:

1. To give students a basic understanding of economic concepts and the economic environment within which business firms operate.
2. To provide students with the analytical tools they need in order to understand the ways in which a business is affected by its economic environment.
3. To enhance students' analytical skill in applying economic concepts to study current economic and business problems and policy issues.

Measurement of Learning Outcomes:

1. Through class preparation and participation in discussions, students acquire skills in time management, problem-solving, and oral presentation.

2. In-class discussion of group activities such as cases, debates, and recent Hong Kong economic events or policies helps students to apply the economic concepts to study current economic and business problems in Hong Kong or in this region.
3. Problem-based assignments require students to apply the conceptual knowledge to solve economic questions and problems.
4. Final examination requires students to apply the learned knowledge in addressing examination questions under microeconomic perspectives.

Course Assessment

Examination	50%
MyLab Economics assignments*	10%
Midterm Test: 4:30-5:30 pm on 16/3 at SEK G09 (Ch. 1, 3-6, 8, 9)	20%
Group debate	15%
Participation	5%
Total	100%

* Alternatively, the weight of midterm test for the students who choose not to use MyLab will become 30%.

1. **Group debate:** Students are divided into 6 or 8 groups for the group debate project. There are four topics shown in the lecture schedule to be discussed. For each topic, there will be two groups (each of 3 or 4 members) participating in the debate. One group takes 'pro' position and the other group takes 'con' position. The allocation of debate topics and the sides of debate are decided by lottery. The first member of 'pro' group addresses their views first and then followed by the first member of 'con' group. Then the second member of 'pro' group presents, etc. Each member (except the last member) of each group presents in turn and has 3 minutes to present. The last member of each group will have 3+2 minutes to present and conclude their views. Then the rest of students can join in to raise questions on either side. The whole debate should finish within 40-45 minutes. Grading will be based on the content and presentation performance of both the individual and group together according to the assessment rubric attached at the end of the outline. **On the day of debate, each group should provide the instructor a brief summary of arguments.**

Debate topics include:

(1.1) Legalizing UBER call ride business in HK;

(1.2) Subsidizing Foodpanda food delivery service in HK;

(1.3) Alipay HK vs. PayMe: who will win the fight for Hong Kong's digital payment market?

(1.4) Should HK develop the business of acting/ idol production?

2. **MyLab Economics:** Students who bought the textbook can register on the MyLab Economics of Pearson (code: lingnan36451). There is one quiz of each chapter and students are required to complete them before deadline. **We shall count the highest 8 scores out of the 12 quizzes.** If students do not buy the textbook, the 10% of the assessment will be added to their midterm test results. More detail instruction on MyLab Economics can be referred to from the following website:

<http://www.pearsonmylabandmastering.com/global/northamerica/myeconlab/students/>

3. **Midterm test:** It will be held during **4:30-5:30pm on 16 Mar at SEK G09**. It consists of 40 MC questions and covers from Chapter 1, 3-6, 8 and 9.

4. **Participation:** Students are required to have at least **75%** of attendance rate. You are actively encouraged to ask questions in class. Students who display an interest in the subject score higher in participation. Taking an active part in group discussions or clear leadership in your group debates / presentations also adds to participation marks. You lose participation marks for low attendance, consistent lateness, disturbing behaviour etc. However, **high attendance does not mean a high participation mark.**

(4.1) Economic experiment: during economic experiment class or group discussion class, students of each group will sit together and discuss the questions of the relevant materials listed in the lecture schedule and present their views.

Important Notes:

1. Students are expected to spend a total of 9 hours (i.e. 3 hours of class contact and 6 hours of personal study) per week to achieve the course learning outcomes.

2. Students shall be aware of the University regulations about dishonest practice in course work, tests and examinations, and the possible consequences as stipulated in the Regulations Governing University Examinations. In particular, plagiarism, being a kind of dishonest practice, is “the presentation of another person’s work without proper acknowledgment of the source, including exact phrases, or summarized ideas, or even footnotes/citations, whether protected by copyright or not, as the student’s own work”. Students are required to strictly follow university regulations governing academic integrity and honesty.

3. Students are required to submit writing assignment(s) using Turnitin.

4. To enhance students’ understanding of plagiarism, a mini-course “Online Tutorial on Plagiarism Awareness” is available on <https://pla.ln.edu.hk/>.

Appendix 3

BUS 2105 Microeconomics for Business: Peer Evaluation Form

Student's Name: _____ Instructor: _____

Assume that you have \$100 to divide among the members of your team (*EXCLUDING yourself*) based on each member's overall contribution to the team debate. The team member whose contribution was the greatest should receive the largest share of the \$100. The member whose overall contribution was smallest would receive the smallest amount. In the space below, please write the names of your team members - *excluding yourself* - and the dollars you feel they deserve:

Name	Group Project
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
	TOTAL = \$100

Overall, use the following space to write a few sentences explaining the major strengths of the strongest member of your team and the major weaknesses of the weakest member of your team (*excluding yourself*):

Strongest member's name: _____

Comments: _____

Weakest member's name: _____

Comments: _____
