Course Description and Schedule
First Term, 2026-27

Instructors: Prof. Hilda KEUNG (email: hildakeung@ln.edu.hk)

Credit Hours: Three hours per week, one term

Brief Course Description and Objectives:

This **functional core course** introduces the fundamental concepts of marketing to students. The objectives of the course are to equip students with the foundation knowledge of marketing and to give students an integrated approach to develop a marketing plan. Working along the strategic marketing process, during which the process is divided into planning, implementation, and control phases, a basic marketing framework for developing a marketing strategy will be introduced to students via such tools as in-class activities (e.g., case studies, in-class group discussions, and presentations), online quizzes, an individual written assignment, and a final assessment to integrate what the students have learned in the class.

The course fits in the liberal arts education philosophy of the University in that it emphasizes self-learning and gives students a holistic view of how marketing functions in an organization as a management philosophy and as an activity.

Learning Outcomes:

After taking this course, students should be able to:

1. apply the concepts and theories learnt to marketing situations and make appropriate decisions using a strategic marketing perspective (LO1)
2. broaden their managerial perspective of marketing from a business enterprise's point of view (LO2)
3. improve their analytical skills and be able to think critically and creatively (LO3)
4. present their findings and recommendations in a concise, convincing and logical way via written works (LO4)
5. make oral presentations with good communication skills such as using appropriate vocabulary, visual aids, etc. (LO5)

Measurement of Learning Outcomes:

1. A group project assesses how well the students can apply and integrate the various marketing concepts to address the marketing problems and challenges found in practice (LO1, LO2, LO3, and LO5).
2. A mid-term multiple choice test and a final essay-based examination are used to assess students' understanding of the key concepts and principles of marketing management (LO1 and LO2).
3. e-Book and Connect learning system to help students learn faster and more efficiently, and to reinforce what they have learned in class (LO1 and LO2). Optional online quizzes are offered by the Connect system to provide information to students which can allow them to track their progress and performance and identify their own strengths and weaknesses.
4. An individual written assignment requires each student to develop alternative strategies to extend the product life cycle of a given brand and present the findings and recommendations in a report in a concise, convincing, and logical way (LO1, LO3 and LO4).
