Living-Learning Community and Residential Education Programmes

In order to extend student residents’ learning opportunities and enhance their intellectual and personal growth, each residence is a Living-Learning Community with an educational theme. The Warden Offices (WO) will also offer a rich array of residential education programmes ranging from the meaning of residential life, healthy lifestyle, self-understanding and management, green living, language learning, book reading to art and culture appreciation for their residents. The programmes aim to enhance students’ understanding of residential life and language competence, enrich students’ cross-cultural appreciation, strengthen students’ intellectual development, widen their “Glocal” perspectives (capable of addressing issues from both a local and global perspective), and encourage immense interactions with residents and WO and fellows who come from different study disciplines.

Residential Education is one of the six learning domains of the Integrated Learning Programme (ILP), which is a graduation requirement. Every undergraduate student is required to complete at least 5 (admitted in 2025-26 and before) or 3 (admitted in 2026-27 and thereafter) ILP units in Residential Education before graduation. The Residential Education focuses on whole-person development to enhance students' competences in the following areas:

Personal Development
interpersonal communication ability, independence, self-governance ability and intellectual development

Leadership Development
problem-solving, sense of community and responsibilities, analytic competence and critical thinking

Language Enhancement and Internationalisation
cultural integration and appreciation, and global perspectives

Activities under this domain will be mainly provided by WO for advocating their educational themes as Living-Learning Community, and supplemented by the Office of Student Affairs (OSA) and various University offices and student bodies.

Cross-cultural Integration and Appreciation

The University provides many opportunities to students to study abroad or in the Chinese Mainland for one full credit-bearing academic term, and likewise to receive the same number of incoming students for one academic term and/or one academic year. Besides, the University is admitting up to 50% of students from overseas and the Chinese Mainland for full degree programme in support of cross-cultural integration and appreciation.

Students applying for Student Exchange Programmes are strongly recommended to contribute to internationalisation on campus and serve as cultural ambassadors by (1) participating in the Global Ambassador Scheme organised by the Office of Global Education (OGE), and/or (2) living with non-local degree-seeking/incoming exchange students in student residence for at least one term. Your prior experience in these two schemes will be taken into consideration and give you extra credit for the assessment of your application for Student Exchange Programmes. OGE will check with the Office of Student Affairs (OSA) whether student opted and stayed with non-local or exchange roommate in the student residence.

The Student-initiated Multi-Cultural and Multi-Lingual Enhancement Programmes Campus Fund (MMCF) is introduced by OSA to encourage interaction and integration among local, mainland, and overseas students. Adopting a bottom-up approach, MMCF aims to support student-led initiatives that promote language learning and cultural exchange. Students may apply for funding to organise activities such as global cinema screenings followed by discussions, introductions to cuisines of different countries, world classics reading clubs, participation in cultural and art appreciation programmes, and field trips to historic sites in Hong Kong for cultural appreciation.

Support and Guidance

Warden and his/her team provide support and guidance for students in hostels. Each hostel has a Warden, a Senior Tutor and four to six Tutors. The Warden is the head of his/her assigned hostel. The Warden Office (WO) is responsible for a range of pastoral functions which include: care for the welfare of individual residents, the creation and maintenance of conditions conducive to their intellectual, social and cultural growth, the encouragement of a sense of community among hostel members.

Student Hostel Association (SHA) and floor representatives represent the interests of student residents and organise a wide range of activities in order to enhance residents' sense of community and hostel spirit.

The Campus Support Office (CSO) of the Office of Campus Development and Management (OCDM) helps in the security, maintenance and repair. OSA helps in administering hostel admission, room assignment and room swapping, and the withdrawal of students. The Information Technology Services Centre (ITSC) helps in the LAN, Wi-Fi and other IT services.

We maintain a close relationship between the Warden's Office, Student Hostel Association and students, encourage strong bonds among students through different social activities, and provide outstanding supportive services.

The theme of our Integrated Learning Programme (ILP) on residential education is: Live. Learn. Connect. We organise numerous social activities for residents as platforms to build trust, understanding, and mutual respect and excellent interpersonal relationships. By this, we are able to live as "A" family. The residence is a place for students to develop their leadership qualities and sense of responsibility and commitment. We strongly encourage students to take up leadership positions such as floor representatives or members of the Student Hostel Association and to participate in the numerous social and educational activities in the hostel. To support students' leadership training and social and digital skills, we organise several workshops on communication skills and the use of digital technologies in education and work settings.

Introduction of Hall A 26th Student Hostel Association (SHA)

The Student Hostel Association (SHA) initiative "Anew in A," launched in January 2026 and continuing through December 2026, represents a fresh beginning for residential life in Hall A. Guided by the mission to build an inclusive and welcoming community, the initiative brings together residents from diverse cultural backgrounds, with members from countries such as China, Bhutan, and Kazakhstan. This diversity is at the heart of "Anew in A," shaping a vibrant and supportive environment where residents can connect, share experiences, and feel at home.

Since its establishment, the association has organized a variety of activities designed to bring people together in fun and meaningful ways. The Welcome Night set the tone with engaging icebreakers, along with snacks, drinks, and pizza that encouraged residents to relax and get to know one another. The Chinese New Year celebration was another highlight, featuring hands-on cultural activities such as making tanghulu, writing the traditional "Fu" character, and receiving red envelopes and small prizes for outstanding calligraphy. In addition, regular board game sessions and a semester-end dinner have helped strengthen friendships and create lasting memories within the hall.

Looking ahead, "Anew in A" is excited to continue enriching residential life with upcoming events such as a BBQ party, hiking trips, and a Christmas celebration, with more activities in the works. Through these efforts, the SHA aims to ensure that every resident feels included, engaged, and truly part of the Hall A community.

Located in the Southern Hostels neighbourhood, the Chung Shun Hall Yee Min Hall presents a proud history for student residence with sophisticated experience in fostering innovative mindset, critical thinking, independent learning and social engagement among residents to gear up for future aspirations.

Our Warden's Office (WO) consists of a dedicated team with a Warden, a Senior Tutor as well as four Tutors to maintain a vivid residential life at Lingnan. The WO team manages hostel affairs, plans and implements residential education, and coaches the Student Hostel Association (SHA) in the provision of residential activities for peer cohesion. In particular, we offer a rich array of Integrated Learning Programmes on well-being, language enhancement, cultural exchange and more.

Residents here enjoy staunch support that helps develop their whole-person excellence. The Warden and Senior Tutor regularly meet with student residents and the SHA committee to discuss hostel and social issues, personal development and academic concerns. Meanwhile, the Senior Tutor and Tutors also meet floor representatives every month to ensure adequate hostel facilities and social functions on each floor.

We endeavour to cultivate a dynamic residential life that encourages students to step out of their comfort zones, embrace challenges, and make changes to contribute to the betterment of society.

One of the four classic hostels of the Southern Student Hostels, Lam Woo Hall is a dynamic campus community of 250 residents, including students from all years, international students and scholarship-recipients. This cultural and social diversity not only creates an inclusive environment where all residents are valued and appreciated, but also forms the foundation of our unique culture of "Freedom, Autonomy, and Self-Discipline 自由, 自主, 自律".

We believe that hostel is miniature and self-reliant in which students can learn how to balance freedom with responsibility. To realise this philosophy, the Warden Office (WO) encourages residents to actively engage in the management of residential public affairs and acquire the art of resolving conflicts with their neighbors through effective communication and coordination. In recent years, residents have also established various organisations/association to cater to the needs of residents and provide residential-wide programmes and activities, such as Hall Camp in late August, Haunted House during Halloween, Pun Choi Dinner during Chinese New Year and Annual Dinner in early April. These annual activities provide social, recreational, and leadership-involvement opportunities for our residents to connect with one another, explore Lingnan and the surrounding areas, and expand their learning and development horizons.

Our hostel also features a very dedicated team of live-in staff: The WO consists of the Warden, Senior Tutor, and four experienced tutors. It is dedicated to promoting personal growth through educational programming and advising, as well as assisting residents in maximizing their residential experience at Lingnan.

Most importantly, our residents have been doing their part in passing on our traditions and have been contributing to our vibrant community. Living in harmony under one roof, residents from different backgrounds and different countries, and WO, SHA and Floor Reps have been working hard to ensure that all students feel at home and could experience the joy of independence through our "Freedom, Autonomy and Self-disciplined" tradition. We hope you can share our joy and are excited to welcome you to our family!

The Jockey Club Hall (E) values a healthy attitude, responsible leadership and an entrepreneurial spirit by providing various exciting experiential learning opportunities for our residents.

Abbreviated as "Hall JCE" or "Hostel E", our residents enjoy a strong taste of a "green and positive" lifestyle via an enriched conducive environment and dynamic residential education. "Green" signifies our goals of living together in an eco-friendly, healthy, energetic residential life and taking initiatives for sustainable development for the community. Lovely plants outside the entrance of the residence, on top of the letter boxes on the ground floor, and in little gardens in the 8/F lobby, balconies and 9/F lobby will accompany you throughout your residential life. It is indeed a treat throughout the year with flowers blooming and fresh scents from plants, marvelling at them growing in size and numbers.

Joined together, the Warden Office (WO) and JCE Student Hostel Association (SHA) promote the "Green" theme through many opportunities for students to develop academic curiosity, creativity and entrepreneurial leadership.

Some student residents will be elected by all residents in JCE as student leaders. All residents are strongly encouraged to join in programmes offered by the WO, SHA, Office of Student Affairs (OSA) or Office of Service Learning (OSL). Being involved in planning and organising different activities for residents, you can achieve different soft skills before your employment after graduation. You will be able to use innovative ideas to solve problems and difficulties, collaborate with different stakeholders in the university, enhance personal confidence, creativity and personal charisma, improve social and interpersonal communication skills, and practice responsible citizenship as a university member. It will surely be an adventurous and rewarding journey!

Let's embark on Hall JCE's unique journey together and have a memorable and lovely residential life!

At the Jockey Club Hall (F), we prize personal dynamic transformations through interpersonal cooperative endeavors. Among such transformations, intellectual growth is the most important one. "Intellectual", not in its narrow sense of focusing only on theoretical or armchair studies, but rather in its broader sense of keeping abreast of the larger world with a critical yet ardent eye to understanding as well as re-creating it.

We cherish everybody's equal value in his or her potential to attain as high an intellectual growth as possible. We believe that everybody in the depth of his or her mind has the same powerful seed of wisdom, which only awaits appropriate light and water in a piece of fertile soil. The soil becomes fertile when more seeds begin to grow and absorb water that is nothing but various inputs from collective activities as well as individual learning. often emerged from interpersonal discussions, questions and debates. So our Hall encourages all kinds of spontaneous grouping from residents out of similar or overlapping interests.

Again, we believe that a person's interests or habits are not static or fixed once for all. Rather they are dynamically variable, depending upon both external changing environments and internal developing needs. And the most interesting and challenging thing for us is to create such a naturally growing environment that not only sustains existing healthy personal needs or habits but also stimulates the breakthrough of more seeds in their journey towards better light at interesting heights -- that is what we mean by "enlightenment".

On behalf of us in the Warden's Office, welcome to Wong Hoo Chuen (WHC) Hall. We believe that residential living makes positive contributions to one's education in terms of forming friendships, developing interpersonal skills, and accumulating life experiences. At WHC Hall, we try to provide a fresh and unique model of residential life within the university.

Established in January 2012, WHC has always attracted excellent undergraduate and postgraduate student residents who seek a rich, diverse, and culture-based hall life. The living and learning environment that WHC offers is based first and foremost on mutual respect. One example of this is our Peer Mentoring Programme, which provides a platform to share our ideas and goals of academic excellence, career, and personal growth. Due in large part to our architectural uniqueness in that we share the same physical space, it is essential for residents to respect each other.

We also hope that residents reach out to and look out for one another. In this regard, we at WHC strive to foster a sense of belonging along with the idea that academics can be cool! We organise many cultural events such as cinema, music, poetry, and are open to any suggestions from residents. Finally, in relation to this overall theme of mutual respect, while at WHC, we hope to foster the formation of lifelong friendships that are filled with fond memories and meaningful experiences. Each resident of WHC is part of this diverse community and we all have our own unique and valuable role to play here.

Once again, welcome to WHC!

TIPS FOR RESIDENTIAL LIFE

Living on campus is an exciting new chapter of life. To help you adjust, this chapter outlines essential tips and policies for maintaining a safe, respectful, and vibrant residential community.

SDGs and Green Living Tips

Residents are highly encouraged to develop a sustainable living habit, which is the best way to contribute to the common good of student hostels, the campus, and the earth.

Everyone can play a part in protecting our environment in our daily lives and at hostel. By adopting these daily habits, you are directly supporting the **United Nations Sustainable Development Goals (SDGs)**:

SDG 12: Responsible Consumption and Production –

Focuses on doing more and better with less, and reducing global waste

• **Save Food:**

- Order only the amount you can eat.
- Reduce leftovers by taking them away or cooking them for your next meal.
- Support food donation activities for charities.

• **Save Resources:**

- Bring your own water bottles and bags.
- Use fewer tissues and paper napkins.
- Think before you print materials or print on both sides of the paper.
- Donate used items such as books, utensils and clothing to the needy. Stay tuned for our **3R (Reduce, Resue, Recycle) Market** before the mass check-out period.

SDG 6: Clean Water and Sanitation –

Focuses on ensuring the sustainable management of global water resources

- Reduce shower time.
- Utiltse the “Behaviour Activated Showerhead” to remind users of water usage via an incorporated LED lighting system.
- Wait for a full load before washing clothes.
- Turn off running water when brushing teeth or shaving.

SDG 7: Affordable and Clean Energy –

Focuses on improving energy efficiency and reducing carbon footprints)

- Reduce your use of air-conditioners.
- Maintain efficiency by cleaning the air-con filter periodically, say every 2 – 4 weeks.
- Turn off all electrical appliances and unplug chargers from the wall when not in use.
- Taking stairs instead of lifts. It is also a good way to stay active and healthy.

*Even small changes in your daily habits
can make big differences to the environment!*
