## SSC3319 Junior Research Project

*(Individual supervision with optional Service-Learning elements)*

### What is Service-Learning?

Service-Learning (S-L) is pedagogy that **combines rigorous academic study with meaningful service in the community**. It is a high quality teaching and learning strategy that aims to facilitate student learning in terms of students' academic knowledge and personal development.

### Service-Learning option in SSC3319

Students have the option to include an S-L component in their project. The student will work with a suitable community partner in consultation with the supervisor to incorporate their research needs into the project.
