1 About Lingnan University

Lingnan University is the liberal arts university in Hong Kong and we have the longest established tradition among the local institutions of higher education. Our history can be dated back to 1888, when our forerunner, the Christian College in China, was founded in Guangzhou, and to 1967, when the institution, as Lingnan College, was re-established in Hong Kong.

It is ranked:

- 3rd in the World for Quality Education (*THE University Impact Rankings 2021*)
- Top 8 Outbound Exchange Students (*2020 QS World University Rankings: Asia*)
- Top 10 Liberal Arts College in Asia (*Forbes 2015*)
- Among the Top 21% universities in Asia (*2020 QS World University Rankings: Asia*)
- World's Top 33 for International Faculty (*QS World University Rankings 2022*)
- Top 50 Promoting No Poverty (*THE University Impact Rankings 2020*)
- 1st in Asia for International Faculty and Exchange Students (*QS Asia University Rankings 2021*)

Meaning of the Lingnan Logo

The mountain, river, trees and path illustrated in the University logo each symbolise a profound principle:

- The White Cloud Mountain depicts the highest aspiration in life;
- The Pearl River represents the wide dissemination of Lingnan education;
- The lychee trees - with ripe fruit hanging in clusters - represent the commitment to realise the precept "For God, for Country, and for Lingnan";
- The path represents the road to the future by virtue of hard work;
- The panoramic view of the campus in the emblem 'reminds alumni and friends of Lingnan of their loyalty wherever they may be. The red and grey colours of the emblem help nourish the sentiment; they are "blood-red and iron-grey", symbolizing loyalty and steadfastness. The red and grey reflect the Lingnan spirit, a spirit inspiring them to lay the foundations for a splendid future forever'¹.

- 4.2.2 OBATL is grounded in a set of pedagogical and institutional values and principles that articulate clearly stated “intended learning outcomes” (ILOs) with a set of assessment tasks (methods) for measuring them.
- 4.2.3 OBATL requires that assessment processes be based on **clearly expressed criteria** which are then used for determining the final grade (criterion-referencing).
- 4.2.4 In other words, students are graded on the basis of attaining well defined learning outcomes (i.e., knowledge, skills, attributes criteria) **rather than how they compare with their peer group** (norm-referencing).

4.3 Use of Rubrics

Assessment rubrics are used to interpret and grade students' work against criteria and standards. The details are described in the relevant syllabus.

4.4 Grading System

- 4.4.1 Letter grades are used to indicate a student’s academic performance in a course.
- 4.4.2 Grades are awarded according to the following system:

Grade	Standard	Sub-divisions	Grade Points
A	Excellent	A	4.00
		A-	3.67
B	Good	B+	3.33
		B	3.00
		B-	2.67
C	Fair	C+	2.33
		C	2.00
		C-	1.67
F	Failure	F	0
I	Incomplete		0*
M	Merit		no grade point given*
VS	Very Satisfactory		no grade point given*

S	Satisfactory	no grade point given*
U	Unsatisfactory	no grade point given*
PASS/FAIL		no grade point given*

*Not included in the calculation of grade point average.

- 4.4.3 Grade F indicates failure. A student who receives this grade in the first term of a year course is not normally allowed to continue with that course in the second term.
- 4.4.4 Grade I is a temporary grade which indicates that the course work or examination has not been completed for reasons acceptable to both the teacher and the Board of Examiners. The assessment should be completed within four weeks after official release of the preliminary assessment results, and the grade I will be converted to a final grade which includes all assessment marks; otherwise, the grade I will be converted to grade F. The final grade will be used in the calculation of grade point averages.
- 4.4.5 Pass or Fail grade may only be given as specified in the approved syllabus of the course concerned.

4.5 Grade Point Average (G.P.A.)

4.5.1 Term G.P.A.

This is a figure ranging from 0 to 4.00 (A = 4.00) used to indicate the performance of a student in the term concerned.

$$\text{Term G.P.A.} = \frac{\text{Total weighted points for all courses enrolled in the term concerned}}{\text{Total number of credits}^2 \text{ enrolled in for the term concerned}}$$

where weighted points = grade points x the number of credits of the course concerned

4.5.2 Cumulative G.P.A.

This is a figure ranging from 0 to 4.00 (A = 4.00) used to indicate the overall performance of a student in all the terms up to date.

$$\text{Cumulative G.P.A.} = \frac{\text{Total weighted points for all}^3 \text{ courses enrolled in}}{\text{Total number of credits enrolled in for all terms}}$$

- 4.5.3 Courses enrolled, whether passed or failed, will be included in the calculation of Term or Cumulative G.P.A., but for the courses which have been retaken, only the grade and weighted points obtained in the final attempt will be included in the G.P.A. calculation.
- 4.5.4 Courses which are exempted are not included in the calculation of Term or Cumulative G.P.A.

4.6 Student Progression

A student is required to achieve a Cumulative G.P.A. of 2.50 or above in order to automatically proceed to the next term. A student whose Cumulative G.P.A. is 2.50 or above but below 2.67

- b) The student is unable to attain a Cumulative G.P.A. of 2.67 at the end of the Programme, which is the minimum Cumulative G.P.A. requirement for graduation; or
- c) The student has exceeded the maximum period of study, which is 3 years for the full-time mode.

4.7 Graduation Requirements

- 4.7.1 A student will be evaluated for graduation at the completion of the term in which he/she may satisfy all the conditions for an award. If a student is not allowed to graduate, he/she will be re-evaluated for graduation at the end of subsequent terms.

This includes the criteria for grades on individual assessment tasks, and weighting of individual assessment tasks in calculating the course grade.
- (ii) A student unsure of how a course grade has been arrived at is encouraged to seek an explanation from the course instructor. It is the course instructor's obligation to provide this information, which may include an explanation of the criteria used in marking individual assessment tasks and/ or a confirmation of the scores and weightings on which the course grade is based. In case a face-to-face meeting is impossible, the instructor and the student can communicate by other means, such as email or telephone. During the process, the student is not allowed to lobby for a change of grade.
- (iii) When the student approaches the instructor for an explanation, he/she may be required to provide the work in question if this has been returned to him/her.
- (iv) A student may appeal through the Registrar for a review of grades. The appeal process requires the student to explain briefly why he or she believes the original calculation is incorrect. The Registrar will refer the appeal to the Programme Director/Head of Academic Unit concerned, who will inform the subject teacher. The Programme

Director/Head of Academic Unit will return the result of the review to the Registrar, who will inform the student.

- (v) A student may appeal through the Registrar for a reassessment of one or more written works. The appeal process requires the student to explain briefly why he or she believes the original grade is unfair, with reference to the relevant rubric or marking scheme. The Registrar will refer the appeal to the Programme Director/Head of Academic Unit concerned. The Programme Director/Head of Academic Unit will return the result of the reassessment to the Registrar, who will inform the student.
- (vi) An appeal for review or reassessment requires a deposit, which will be refunded only if the appeal results in a change to the grade.
- (vii) Appeals must be made within two weeks from the release of preliminary examination results.
- (viii) Results of appeals will be determined within 7 working days from the day when the application is lodged.

4.10.2 Discontinuation of Studies

- (i) A student whose studies are discontinued at the University due to unsatisfactory academic performance or progression may appeal in writing through the Registrar against the decision, enclosing all the necessary supporting documents. The Discontinuation Appeals Panel is empowered by the Senate to decide on the case, mainly on grounds of extenuating circumstances that affected the studies of the appellant and/or procedural problem(s) in the assessment process. The decision of the Panel will be final.
- (ii) No fees will be charged to students who lodge such appeals.
- (iii) Appeals must be made within one week after the announcement of the resolution of Postgraduate Studies Committee (PSC).

Course grades for all attempts, inclusive of any course substitute as stipulated in Regulations 4.10.1 to 4.10.3 above, will appear on the student's transcript, but only the final grade and weighted points obtained will be taken in the calculation of the student's G.P.As, and only the credits for the final attempt will be counted towards fulfilment of graduation requirements.
- 4.12.5 A student may retake only two courses passed with grade C+ or below.
- 4.12.6 For retaking a course, a student shall attend classes, complete assignments, take tests and attend the final examination, if any, as other students. In case a student shall retake a course in a different mode, such shall be considered and approved by the Committee on an exceptional basis.

 - Any other form of dishonest practice in course work, e.g. submission of same or substantially same work for two assignments without prior approval.
- 4.13.3 Any staff member who has reason to believe that a student has cheated will present the case to the Board of Examiners and provide the Board with all the relevant facts of the case.

- 4.13.4 The Board of Examiners will consider whether there is a case of cheating.
- 4.13.5 A student considered to have cheated in course work should be given a zero mark for that particular piece of work, and the Board of Examiners has the discretion to impose a penalty on the student by revising downward the overall course grade.
- 4.13.6 To ensure fairness to students and consistency across the University, all dishonesty cases handled by individual academic units will be forwarded to the Student Disciplinary Committee (SDC) for review (at the end of each term if not before). The SDC will decide on the details of individual cases to be submitted by the academic units, and then decide on which cases will be given extra penalty, e.g. a demerit, in addition to the penalty mentioned in 26.5. The Board of Examiners, if deemed appropriate, may recommend to the SDC the appropriate extra penalty with justifications.

The information gathered demonstrates that the development of Lingnan University Graduate Attributes is highly correlated with the academic experiences of students, particularly in the realm of development of critical thinking skills, interpersonal skills, self-managed learning, and problem-solving skills. There is also substantive evidence indicating that the unique nature of the Liberal Arts philosophy, the small class sizes and close teacher-student relationships are seen by many students as some of the most important and defining features of their university experiences. In addition, the co-curriculum is evaluated on an annual basis and provides further evidence of how students value the breadth of experience provided by the University.
